

May 2009 Focus Group Agenda

(This meeting will take place over Webex—your Focus Group Leader will email directions as to how to attend. Plan to arrive early so the meeting can start on time and allow 1 1/2 hours for this meeting.)

1. Finish work begun last meeting on your group's sections for focus of the [WASC Criteria Indicators and Prompts](#). (Use any and all of the documents posted in the WASC section of the Website as needed (findings, evidence, surveys, etc) or other school documents as needed. You will discuss the guide questions, examine school data, decide what evidence addresses this section, then list findings and evidence. Please be accurate and specific! How well we do this job together will determine the number of years of accreditation we will earn at the end of this process!)
2. Discuss your [WASC Rubrics](#) again and choose one agreed upon number now after reviewing all school evidence of which response best fits our school at this time and detail why the group believes this is so. The number can be a decimal: 2.5; 3.6; etc. Try to be as accurate as you can as to where we are currently as a school based on your group's work in #1.
3. Review the updated [School Profiles](#) and give constructive feedback.

Enjoy this time of Self-study, reflection, and contribution together! You are done now until Fall when we will have one more Focus Group Meeting.
